

Sabina Marian-Blanariu

Web & App Developer

Enthusiastic Web Developer and Backend Explorer, driven by a passion for Frontend development.

Leveraging a robust background in Project Management, Quality Assurance, Communication, and International Collaboration, I bring a unique blend of technical expertise and organizational prowess to dynamic web and app development projects.

WORK EXPERIENCE

Career Break - 2016 - Present

Upon relocating to Germany in 2016, I attended to personal matters, traveled and took a German language course. Throughout the pandemic, I focused on personal and professional development and improved my language skills through a short period of employment. Enrolling in a coding boot camp allowed me to master web development. Now, armed with a diverse background and technical skills, I am ready to re-enter the job market.

Technical University "Gheorghe Asachi", Iasi, Romania

Secretary - September 2004 – April 2016

- Coordinated foreign student affairs, overseeing all aspects of five admission processes, including creating methodologies and reviewing student files, handling diploma recognition and ensuring a seamless information flow.
- Facilitated activity coordination and provided essential administrative support for the university's managerial control system throughout a two-year period when I held the position of secretary of the Monitoring, Coordination, and Methodological Guidance Commission of the University.
- Designed, implemented and monitored teaching quality management systems in the twelve faculties of the university, fostering effective communication.
- Organized four international conferences on "Quality Management in Higher Education" and on "Management of Technological Changes".
- Contributed as a Research Assistant in four projects, displaying adaptability in exploratory research and simulation-based tasks.

S.C. Adesgo S.A., Bucharest, Romania

Engineer - July 2002 – August 2004

- Overseeing the zero series introduction, testing the design, functionality and feasibility of the prototypes, ensuring that the product meets the desired standards and specifications before full-scale production begins.
- Monitoring and managing various aspects of production to achieve consistent quality and accurate dimensions in the finished products.

TECHNICAL SKILLS:

- HTML
- CSS
- Tailwind
- JavaScript
- React JS
- Git, Git Hub
- Restfull API
- SQL (Postgree SQL)
- NoSQL (Mongo)

ADDITIONAL SKILLS:

- Project management
- Quality assurance
- Communication
- Research

EDUCATION BACKGROUND

WBS CODING SCHOOL, Berlin

October 2023 – February 2024

Full Stack Web and App Development course

- Intensive full stack web development bootcamp covering PERN and MERN stack applications as well as project-based, team-oriented and agile methodologies.

- *Final project:* collaborated within a four-members team to the development of 'Scan & Serve', a complex restaurant management app. Contributed to the creation of features such as user-friendly menu management, virtual table setup with QR codes, and real-time order tracking using Socket.IO. Demonstrated teamwork, problem-solving and coding skills throughout the project.

Technical University "Gheorghe Asachi", Iasi, Romania

September 2002 – July 2003

Master's Degree

Specialization: Computer-aided Design and Manufacturing

- Proficient in modern integrated manufacturing systems.
- Skilled in implementing and managing quality assurance systems.
- Utilizing computer-aided experimental research techniques for performance enhancement.

Technical University "Gheorghe Asachi", Iasi, Romania

September 1997 – July 2002

Bachelor's Degree

Specialization: Garments-Knitwear

- Knowledgeable in physical and chemical fiber properties.
- Proficient in textile structures, machine mechanisms, and material resistance.
- Expertise in comfort, functionality, and design of clothing products.
- Skilled in textile technology, knitting, clothing construction and modeling.

LANGUAGES:

- English – B2
- German – B1
- Rumanian - native

INTERESTS AND HOBBIES:

- Avid reader, inspired by imaginative worlds in literature, applying innovative thinking to daily tasks.
- Fascination for history, the universe and neuroscience, providing valuable perspectives for problem-solving.
- Engaged in jewelry creation, emphasizing attention to detail, precision and design thinking.
